NANXING NDC602A CNC Drill

- - Code : AR01383

Technical description

NANXING NDC602A CNC Drill

· Registration number: 031320000
Year : 2021
Origin : China
Condition : Used
Availability : In stock

Technical specifications :

Drilling Block and Equipment Configuration
"Lower supports: 6 numbered mobile support units from 1 to 6, equipped with multi-spindle heads for lower vertical drilling.
"Horizontal drilling units: Horizontal machining blocks mounted on precision linear slides for edge drilling.

NANXING NDC602A CNC Drill

- - Code : AR01383

Technical description (continuation)

"Superior pressing system: Pneumatic disc presses aligned in the upper part for perfect panel support during machining.
"No drilling: 32 mm industrial standard.
"Suction system: Integrated suction collectors with flexible ducts for immediate removal of chips.

Interface and Digital Control
"Operator console: Lohmeyer industrial control console integrated on articulated arm.
"Equipment: Colour screen, industrial keyboard under protective membrane, mouse and remote emergency stop button for simple control of the drilling line.

Electrical, Pneumatic and Dimensional Data

"Total installed power: 26.5 kW
"Supply voltage: 400 V (Three-phase, 50 Hz)
"Required air pressure: 6 to 7 bar"
Overall dimensions: 5,540 × 3,660 × 1,950 mm (Length × Width × Height)
"Total empty weight: 5,600 kg (5.6 tonnes)"
