# COMIL Packaging Line

- - Code : AR01384

## Technical description

COMIL Packaging Line

· Registration number: 43/91/2
Year : 1991
Origin : Italy
Condition : Used
Availability : In stock

Technical specifications :

Total installed electrical power: 51 kW (including heating of the thermal oven)
Supply voltage: 380 V (Three-phase)
Frequency: 50 Hz
Number of phases: 3

## Technical description (continuation)

Line Composition and Included Components

1. Logistics Conveyor System (Multi-section):
Motorized roller tables: Long sections of robust roller conveyors (cream color) equipped with independent geared motors in the lower part for the smooth movement of heavy loads.
Free roller or gravity conveyor: Blue structure section with safety zebra stripes (yellow/black) for unloading, accumulation or manual transit areas.
Lifting station / Recessed roller lifting table: Floor integration module allowing compensation of levels or orienting of flows.
2. COMIL Packaging and Sealing Unit:
Main gantry structure integrating the film unwinder, the thermal sealing bars for plastic wrapping and the remote operator control consoles.
3. COMIL S093 Thermal Shrink Tunnel/Oven:
Equipped with an internal high-temperature resistant conveyor belt to ensure uniform shrinkage of the plastic film around the packages.
Dedicated electrical cabinet: Integrates power switches, analog phase load control ammeters (graduated indicators 35A, 38A, 42A) and regulating thermostats.
