HOLZHER uni-master 7120 F machining center

Holzher - Uni-master 7120 F

Technical description

Description: heavy structure industrial machine Machining range: - X: 4335mm

- Y: 1300mm
- Z: 180mm - Movement speed of the "X" "Y" axes 78 m/min
- "Z" axis linear speed: 25 rpm
- 12KW HSK63F liquid-cooled electrospindle
- 2.2kw horizontal milling head
- Remote control remote control
- Barcode reader
- "C" VECTOR AXIS allowing the angle transmission heads to be rotated and positioned 360° with automatic rotation adjustment by numerical control
- Spindle liquid cooling system
- Independent fixed blade group - to make grooves in "X" direction
- Rear tool change magazine with 12 positions
- Additional pick up tool magazine 10 positions

HOLZHER uni-master 7120 F machining center

Holzher - Uni-master 7120 F

Technical description (continuation)

- Programming and control system under PC WINDOWS
- Drill head: -12 independent chucks for vertical drilling in "X" direction
- 6 independent chucks for vertical drilling in "Y" direction
- 4 mandrels for horizontal drilling in "X" direction
- 2 chucks for horizontal drilling in "Y" direction
